

PINOT NOIR 2017

- Appellation Vin de France
- Average Vine Age 10 years
- Pruning Guyot
- Density of Vines 6 000 vines/ha
- Varietal Pinot Noir
- Soil composition Limestone
- Harvest Mechanical
- Average yield 35 hl/ha

Description

Originally from Burgundy, Pinot Noir is a delicate grape variety, with its small and compact bunches. Producing small volumes of wine, it is one of the most qualitative grapes. Our vineyards are located in the south of Beaujolais, in the area of Pierres Dorées. A few years ago, we decided to plant Pinot Noir in this region traditionally known for the quality of its Gamay. Its limestone soil rich in iron oxide and temperate continental climate give an elegant, balanced and fruity wine. The reintroduction of the owl to the vineyards was carried out in order to sustainably combat and eliminate rodents and other animals that attack the vine.

Winemaking

Traditional Burgundian temperature-controlled vinification with cap punching

Tasting note

Intense in color, our Pinot Noir 2017 reveals delicious notes of cherry and violet on the nose. In the mouth, it is ample with aromas of red fruits and cherry stones. Beautiful length.

Suggested food pairings

Grilled meat - mature cheeses - red fruits

Serving temperature

14°C
